

Stefan Unnasch**TIAX LLC**

Stefan Unnasch is a Principal with TIAX LLC. He grew up in California and received a bachelor's degree in Mechanical Engineering from the University of California at Berkeley.

He started his career in alternative transportation technologies over 20 years ago where he worked on methanol and CNG buses and fueling infrastructure, which turned to an interest in fuel production and hydrogen. He has worked on well-to-wheel's energy and emission studies in support of the California ZEV program, DOE's fuel cell program, International Energy Agency Fuel Cell Annex, and the California Fuel Cell Partnership's Scenario Study.

Mr. Unnasch has participated in many projects dealing with hydrogen infrastructure including:

- guidelines for hydrogen fueling stations
- reformer emission testing
- biomass gasifier development
- fuel cell vehicle cost analysis
- hydrogen transition analysis
